Meeting 2 (10/06/13)

We assigned more detailed research on selected topics (previous issues/dialogues) for review. We planned to run focus groups to get student input, and decided to reach out to the Chancellor and Institute Research (IR) to ask for their input on running the focus groups. We discussed our ideas for these focus groups, such as sizes, types of questions, etc.

We also created docs to begin drafting potential survey questions. We talked about our lack of a budget, and decided to request some minimal funds ($500) from the UA Council. We planned some additional meetings with administrators, including the Dean of DSL, Chris Colombo.
