Meeting 5 (11/01/13)

We updated everyone on some external meetings. One of particular note was that some students and the Asst. to the Chancellor have been discussing an Organizational Chart project, which would address this Committee's earlier concerns about the lack of such a webpage.

Much of the draft assigned at the previous meeting is reviewed and changes are suggested. We also decide that, for additional transparency, we should begin publishing summaries of our meeting actions to the UA website.
