Dean of Student Life, Chris Colombo  
October 23, 2013

Dean Colombo discussed some past events related to the research in our statement draft. He also mentioned some new ideas/potential outlets for good software that could be a happy medium between committees and one-way idea banks.

Dean Colombo mentioned that admins need to know what students think, and that being proactive would be helpful in communication. He additionally recommended that UA SAC meet with some of MIT’s communications officers. We also discussed some past efforts to aid/evaluate communication.

Finally, we talked about student group/leader turnover. Dean Colombo suggested things such as meet and greets to help continuity. Additionally, we discussed ideas for websites to maintain information to help keep students informed.
