Meeting 6 (11/08/13)

Further updates are given about the external Organizational Chart project. We brainstormed some ideas that would be important for such a webpage. We set a deadline of Thanksgiving break for submitting a draft of our UA SAC statement to administrators for their review.

Focus group planning continued, and we discussed content (questions), selection process, logistics, etc. We also discussed ways in which we could make the focus groups most successful, and reaching out (to IR, etc.) about best practices for focus group facilitation. We pondered how successful surveys would be, and decided we were most interested in surveying student leaders who often work with admins (while focus groups would be more for “average students”).
